DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Myers on 11/7/2007.

The application has been amended as follows:

Claim 15, line 9, "with", after the phrase the user of the instrument, has been changed to - - with: - - .

Allowable Subject Matter

2. Claims 5-15 are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. The prior art relied upon in the previous office action rejections by Breitweiser, Jr. et al. (5,408,914) and Sitrick et al. (US 2003/0110926) no longer teach all the claimed elements of the independent claim 1, or its dependent claims, and no other prior art

references could be found that teach said claimed elements, therefore the independent claim and its dependent claims are considered allowable.

5. The references above have been discussed thoroughly throughout prosecution, as can be seen in the previous office actions and Applicant's remarks of record. Up until the present amendment the Applicant has considered the Examiner's reading of the references as too broad and that one of ordinary skill in the art would not be motivated to combine said references in the way suggested by the claims. After discussing the claims with the Applicant on 10/30/2007 an understanding was reached as to how the references were being read and combined by both parties and what may be added to the claims to further remove the present invention from the prior art. The Examiner has thus deemed claims 5-15 allowable after considering the present amendment and the Applicant's remarks in the interview of 10/30/2007, and reviewing the Applicant's previous remarks and arguments to past office actions in the record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

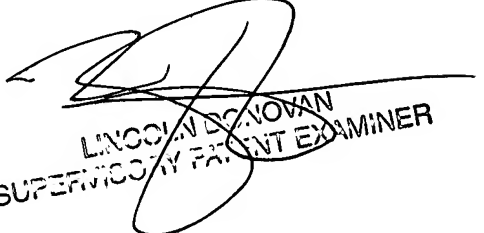

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please see the Notice of references Cited provided by the Examiner.
